Neurology
Baptist Neurology Group is seeking to expand its Neurosciences physician team in General Neurology, Vascular and Neurocritical Care. If you’re looking to become part of a progressive Neurological Institute, the opportunity is Here. Currently the group consists of eleven neurologists covering inpatient and outpatient services at three Baptist Medical Center locations and four outpatient facilities. The Group is looking to expand its existing neuroscience program in multiple areas as well as prepare for our 11 story tower expansion on our downtown campus which will provide state of the art, sophisticated services in neurology and neurosurgery.

The program focus areas of the Neurosciences Center are Stroke and Cerebrovascular Care, Minimally Invasive Spine Surgical Care, and Neuro-Oncology care. Our team of Neurologists and Neurosurgeons offer an interdisciplinary, collaborative approach to patient care striving to deliver consistently high quality care and an excellent patient and family experience. Baptist Medical Center Jacksonville is a Joint Commission Certified Primary Stroke Center, with rapid assessment beginning in the Emergency Department. Four floors of the new patient care tower will be dedicated to the care of these patients, including an operative suite with intraoperative MRI and CT capabilities, a 12 bed Neuro-ICU, and two 24 bed units for medical and surgical neurological patient care.

Coupled with state of the art facilities, a distinguished Magnet designation and a Top 50 U.S. News and World Report award in Neurology and Neurosurgery...We offer a unique practice blend that recognizes the need for practice autonomy and a supportive hospital environment. Competitive compensation, benefits, and shared call arrangement allows for a perfect balance of Work and Fun in the Sun.

You’re welcome to view our website at www.baptistneurology.com.

Cardiology
Baptist Heart Specialists, a physician specialty of Baptist Health, is recruiting an Electrophysiology Physician to be the Electrophysiology Service Line Leader for our busy multi-specialty cardiology practice in Jacksonville, FL.
The Physician will have the opportunity to maintain a significant medical practice while also serving in a leadership capacity. Baptist Heart Specialists includes 27 Board Certified Physicians combining the expertise of 24 Primary & Interventional Cardiologists, 3 active Electrophysiologists and an accomplished Clinical Research program.

**Geriatrics**

On October 3, 2011, Baptist Health announced the formation of the AgeWell Institute and in September 2012 the 8,000 square foot AgeWell Health Center will care for its first patient. As a five hospital not for profit, community based health system located in Northeast Florida, Baptist Health is recognized as "Best in our Region" for geriatric care by *U.S. News & World Report*. Baptist Health is transforming the culture of its organization and the way it delivers care to its patients by ensuring that the care is sensitive to, and centered on, the specific needs of older adults.

Baptist Health continues to build its multi-disciplinary team and is interested in introducing the program to physicians willing to join at the ground level to help shape the only comprehensive geriatric program serving the residents of northeast Florida and southeast Georgia.

**Hospitalist**

An exceptional opportunity exists to practice as a Hospitalist for Baptist Primary Care. We are currently recruiting additional Hospitalists to join an established Hospitalist program as the demand for our services has grown. The ideal candidate is BC/BE in Family Medicine or Internal Medicine with excellent clinical skills who are forward-thinkers, team players, problem solvers, and diplomats.

Physicians mainly focus on just one hospital, striving to provide quality care and seek the appropriate balance of schedules. Each group is constantly growing, so if you’re encouraged by a progressive healthcare system and enjoy an energetic outlook in the advancement of the hospitalist team’s growth to meet the dynamic needs of hospital-based medicine, Baptist Health is a dynamic choice. You’ll enjoy an area of Florida that offers endless opportunities and a superior quality of life.

Urology
Baptist Health currently is seeking BE/BC Urologists for two distinct and attractive practice opportunities in beautiful northeast Florida coastal communities. Whether it’s your desire to join an established, thriving practice or establish your own private practice, we welcome your enthusiasm and are eager to meet your career aspirations. Continued community growth and expansion creates the need for a urologist to deliver quality care to meet the demands of the community in progressive, fully equipped area hospitals.
All candidates welcome – new graduates, experienced practitioners and fellowship trained.

General Surgery
Baptist Health is working with a general surgery group that seeks to add a partner in 2011. This is a great opportunity for a BE/BC surgeon with special training in Hepatic and Pancreatic disorders looking to partner with an established physician group. Let us help you create your dream job in a town primed for the right balance between work and play.

Orthopedic Surgery
Baptist Health and Jacksonville Orthopaedic Institute seek to add a General Orthopedic Surgeon as well as a Total Joint surgeon to join a premier orthopedic surgery group with a thirty-year history of excellence in northeast Florida.

Providing the most comprehensive orthopedic services with 31 specialty-trained Physicians, 6 Practice Locations and 9 Rehabilitation Centers, Jacksonville Orthopaedic Institute is Northeast Florida’s most respected name in Orthopaedics.

in Northeast Florida and Southeast Georgia. As a Baptist Primary Care physician, you become a part of Baptist Health where your patients benefit from access to the most preferred health system in Jacksonville, with more than 2,500 specialists and five nationally accredited hospitals. Complimenting your care, should your patients require hospitalization in a Baptist Health facility, our Hospitalist Program provides 24/7 oversight of their inpatient stay while acting as an extension of your care.

**Psychiatry**
Baptist Health System is conducting a search for full time adult psychiatrists to work for a large locally owned and operated hospital system. Physician will provide medical services for a multi-disciplinary, full spectrum of care behavioral health department with inpatient, partial hospital, intensive outpatient, and outpatient services.

Baptist Behavioral Health is the only psychiatric group affiliated with a health system in NE Florida. Come be a part of a dynamic team of clinicians and professionals serving the mental health population of North Florida and South Georgia. With a newly renovated inpatient unit overlooking the St. Johns River, we are proud to offer the perfect environment for patient care.
